How to complain

If you have an issue or concern as soon as they arise we will try to sort them out. If you would like to make a complaint, please give us clear details of the complaint as soon as possible so we can investigate what happened. You can ask for a telephone call with the Practice manager in order to discuss your concern. He will explain the practices complains procedure to you and make sure the issue is dealt with accordingly. A complaint must be forwarded within 12 months of the incident that caused the problem or within 12 months of discovering that you have a problem relating to a specific incident.

What the practice will do

We will contact you within three working days about your complaint and discuss the best way to investigate including any time required further to investigate. We will offer you an explanation within that time frame or a meeting with people involved.

We will look into the complain to:

- To find out what took place and what went wrong
- Invite you to discuss the problem with the people involved
